

Parth Engineering works

“We don’t manufacture just parts,
We manufacture Quality”

Introduction:

- profile
- Our product
- Quality policy
- Workshop facility
- Certificate

Profile

- We have the pleasure to introduce our firm as one of the leading established manufacturer & exporters of Brass Components.
- Our plant is well set with modern production machinery & testing equipments AND ISO 9001-2008 certified.
- We have right skills and expertise to manufacture all complex pieces with ease.
- We offer our products as needed by our clients in custom specifications. Our strong technical experience has made us more competitive in market. Further, our quality engineers inspect products thoroughly to assure flawless production to our clients.
- Since the time of our inception, we are working with single objective to achieve maximum client satisfaction. We are striving hard to deliver quality range of products to our clients.
- Our experienced and qualified team is our backbone that shows why we are so successful in the industry. Owing to strict quality guidelines, our products are popular in both domestic and international market

Our Vision:

“To established our self as a best quality products manufacturer and provider to India and also for abroad” .

Our Mission:

“Our mission is to make continuous and never ending Improvement in our products and quality with the help of advance technology and knowledge”.

Our Goal:

“To be the India's leading precision components manufacturer and exporter .”

Our Products

Transformer brass components

Foot valve & plunger

Sanitary brass components

CPVC fittings

Pipe stopping plug

Break fittings

Gas fittings

Pump parts

PRV

Air compression fittings

Reducer fittings

Cable connectors

Hose fittings

Flash cock spindle

Hydraulic & pneumatic fittings

Industrial & medical gas fittings

Marine parts

Neutral links

Pipe union fittings

Sensor fitting parts

Split bolt connectors

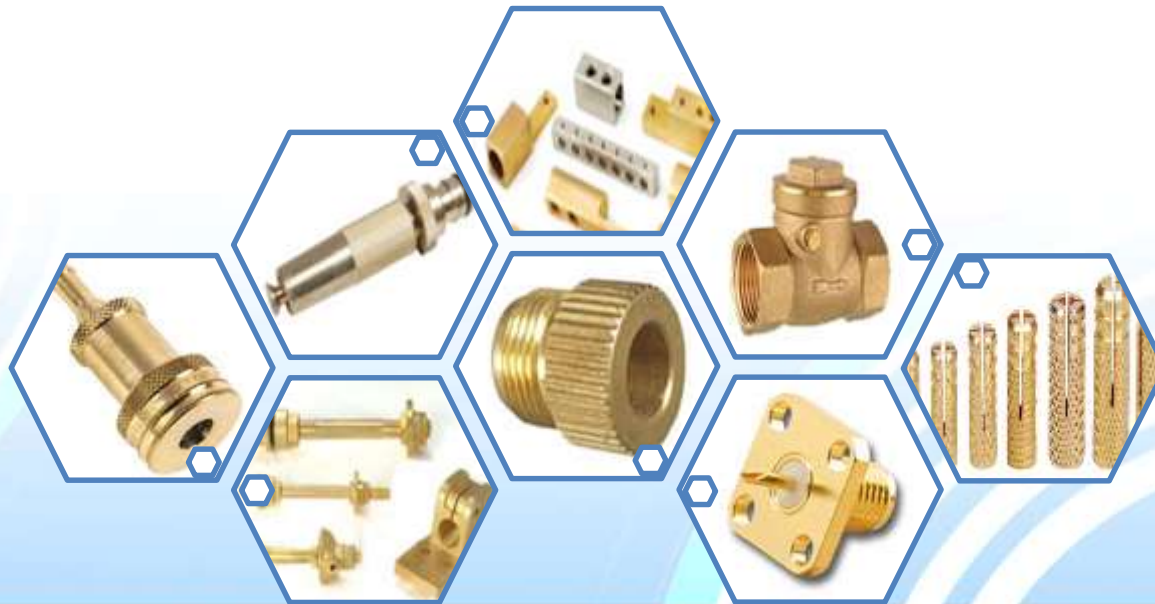

Tank connector

Windmill parts

Fire nozzle & hose fittings

Quality policy

- Quality is our prime motto. Quality being of prime importance, all our activities revolves around managing and maintaining efficient Quality Management System
- We are the accredited and certified manufacturers and suppliers of brass terminals and brass components India whose products are tested on several quality parameters before any final dispatch

Quality policy

- Fine quality raw materials such as Extruded and Casted Brass Rods are widely used to fabricate strong and durable range of brass products.
- Various quality checking equipments like Micrometers...
- Vernier Calipers
- Thread Plug Gauges and Ring Gauges
- Pin Gauges
- Dial Gauges
- Radius Detectors
- Pitch Gauges are extensively used to leave no area of quality unattended.

Workshop facility

- We have in house production facility like **Forging press, CNC & VMC Machines, Traub Machines, SPM Machines and conventional machines** to reduce cost and produce large quantity
- We have well-trained & skilled staff and goods are manufactured under the strict QC supervision at every step of production.
